Those who shall be able to hear Professor C. H. Winston deliver at Association Hall tonight his second lecture on "Sound" will enjoy an evening of rare entertainment and nstruction. The Lecture Committee of the Young Men's Christian Association deserve the warm thanks, cordial congratulations, and liberal support of the community for the 'feast of fat things" served up by them this season. And it will be gratifying to the friends of the Association to state that the lectures this season have been a decided

financial success. Professor Winston's lectures will rank, in every respect, among the best of the course.

SI SLOCUM-THE DEAD SHOT .- The storm last night no doubt deterred many persons from witnessing at the Theatre the very exciting drama of Si Slocum and the extraordinary shooting of Mr. Frayne and his wife. If Mr. Powell only had a good stock company the play would be rendered very attractive; even as it is the skill which Si and his wife exhibit in handling the rifle entitle sess much merit, and is poorly put together, of Delegates for the purpose of nominating who could shoot well. Mr. Frayne, we beseems to hold on to some of its traditions, of more than it is anywhere else.

In one of the scenes Si's marksmanship is fully put to the test. His captors compel him to shoot an apple from his wife's head, or to be shot himself. He loads his rifle in full view of the audience, ties a silk handkerchief over his wife's eyes, turns his back to her, and after adjusting his rifle upon his shoulder, and getting his aim by means of a piece of looking-glass which is fixed uponthe opposite side of the stage, fires, shatters the apple into a dozen pieces, and the bullet imbeds itself in a board placed under one of the private boxes for the purpose. The scene is a very exciting one, and yet the specvotes from Mr. Lacy to Mr. Montague, and tator becomes so intensely interested in the preliminary arrangements that it is almost

over before he is aware of it. Mrs. Frayne is also a very fine shot. Her skill is very thoroughly tested in the scene in which her husband holds an apple in his hand and the unerring ball from her favorite rifle plumbs the centre with a precision that TEENTH CIRCUIT. - George T. Garrison, of can only be appreciated when seen.

But there are other attractive features in the performance. Si's dog Jack is a remarkable brute. He has been more thoroughly trained composed of the counties of Accomac and than any dog we have ever seen, and adds in no small degree to the interest of the drama. In one of the scenes Jack dashes upon the stage, leaps at the throat of an assa-sin who is Yesterday at noon divine service was held in about to make way with Si's horse, drags him down, and Si himself is enabled to escape un-

HANDSOME DONATIONS .- The pastor of the Presbyterian church in this city (Rev. W. A. Among the articles sent from the First church was a countiful supply of flour, bacon, sugar, coffee, and numerous other articles in the grocery line, besides a ton of coal and several valuable packages of dry goods. This was followed by a visit from the pistor of the church (Dr. Preston) in person, who delivered mond filled with ladies from the Second church. They brought a note from their pastor, Dr. Reade, enclosing a liberal sum, contributed by a few members, and another from their Sewing-Circle with like contents.
